Briefly Told is given up entirely this week to the statistical report of the work of the Association for 1911.

Of course this does not cover all of the work for there is much that is done by the Board of Directors and the Employed Officers that cannot be put into figures.

Many a young man is the better, and many a boy the more manly for the work of the Association.

The Board of Directors request that you give this report a careful reading, believing that you will want a larger part in the work of the Association during this year.
